January 2004

Dear Friends:

Please find attached a copy of the 2003 Greater Statesville Development Corporation Annual Report. In keeping with our tradition, this year's annual report highlights certain key economic indicators within our community. It is our hope that this document will assist you in making your own economic evaluation of the Greater Statesville Area economy. I hope you will agree that the indicators highlighted within the report show, that even in difficult economic times, our community continues to display many positives, and trends indicate that opportunities abound for a very bright future.

I would also like to take this opportunity to thank the many volunteers and individuals who have dedicated their time and resources in making our organization successful. We clearly realize that a strong volunteer network is the backbone of our association and we are blessed with a group of supporters that is unmatched within the region. The Greater Statesville Development Corporation is continually recognized as an exemplary organization among its economic development peers and this acknowledgement in large part rests squarely on the shoulders of our volunteers and community leaders.

Finally, we continue to solicit your input and suggestions regarding how we can improve our organizational activities.

Please let us know if you have comments or ideas on how we can better serve the citizens of our community. In the meantime, we look forward to a bright and prosperous 2004.

Sincerely,

John McCalla
Chairman

21. Statesville	21,803,602	841,291,369

¹ Estimated population as of April 1, 2000 prepared by the U.S. Department of Congress, Bureau of the Census.

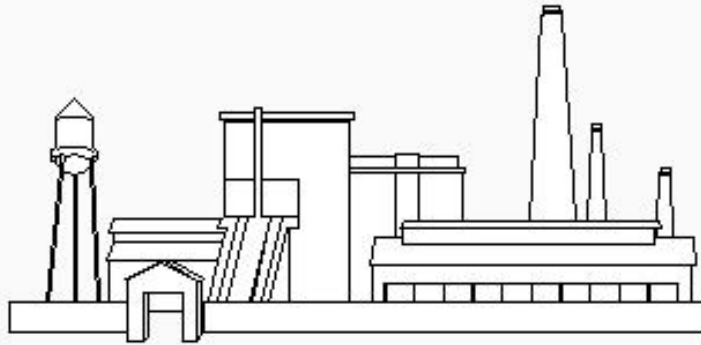

** Amounts shown are gross collections reported during the period July 1 through June 30. Gross collections include registration fees, penalties, interest, and sales and use tax.

*** Amounts shown are total taxable and nontaxable retail sales reported on sales and use tax returns filed during the period July 1 through June 30. The returns received from monthly merchants reflect sales for the period June 1 through May 31; semimonthly merchants reflect sales for the period June 16, 2002 through June 15, 2003. Note: Detail may not add to totals due to rounding.

Starting with the December 2001 report, monthly sales and use tax reports are not comparable to previous monthly reports. Effective October 16, 2001, the general state sales and use tax rate increased from 4% to 4.5%, requiring changes to the return. Prior to the change use taxes were separately stated and taxable sales were not calculated for use taxes. The new return combines sales and use taxes, and taxable sales are computed on the total. Therefore, gross collections reflect the ½% tax rate increase, and gross retail sales reflect taxable sales computed on the combined total of sales and use taxes.

Iredell County Building Permit Activity January 1, 1990 - December 31, 1997

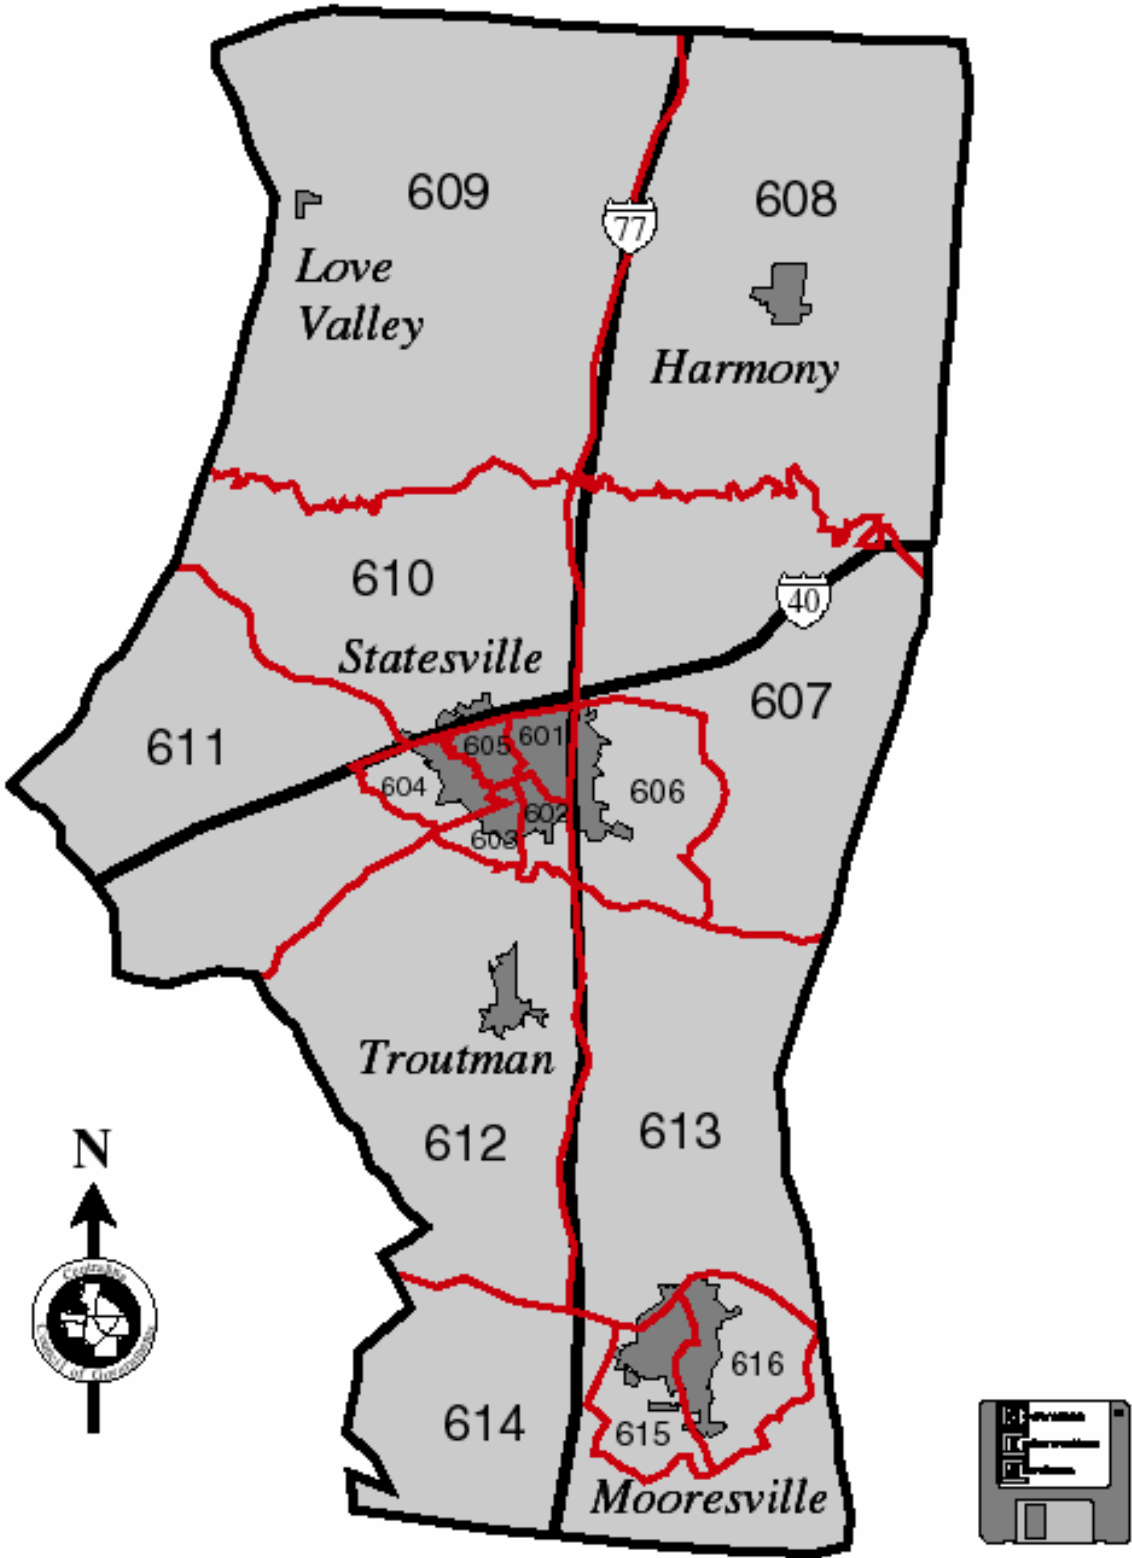

The following statistical profile is a detailed analysis of the building permit activity in Iredell County from January 1990 through December 1997. Data on the type of permits issued and the estimated construction value for development is provided on the County and the Census Tract level in order to determine development activity on a sub-county level. The tabular report serves to provide a detailed look at the breakdown of development type within the broader categories of residential and non-residential permit activity.

The report is divided into two sections; residential and non-residential permit activity. Most of the categories listed are standard classifications used by the US Census Bureau. Major residential upfits constitute any improvement or addition valued at \$20,000 or more. The non-residential upfits (Industrial, Commercial, and Institutional) represent improvements or additions valued at \$50,000 or more.

Attached is a Census Tract map showing the location of the sixteen tracts making up Iredell County. This map provides a reference to the statistical information provided in this report.
